The 42nd CIOFF® annual World Congress and General Assembly were held in Paris, November 11–17, 2012 at the Centre International de Séjour Maurice Ravel (CISP). Over 200 people from 60 countries took part. CIOFF® Congress was graciously hosted by CIOFF® France, led by its President Anne-Marie Ciolfi and CIOFF® International Secretary General Philippe Beauissant in partnership with La Ligue de l’Enseignement.

CIOFF® World Congress received for the first time High Patronage of UNESCO. UNESCO Director General Mme Irina Bokova addressed the Congress delegates during the Opening Ceremony via a specially recorded video message.

Among the main items discussed at the CIOFF® General Assembly were CIOFF® work in partnership with UNESCO, results of CIOFF® World Folkloriada 2012 in Anseong, Republic of Korea, as well as adoption of the New CIOFF® Structure. Three new countries: Kirgizstan, Quwait and Saudi Arabia were accepted as Corresponding Members of CIOFF®.

The CIOFF® Cultural Conference, an integral part of the World Congress, took place November 15 and was dedicated to safeguarding of intangible cultural heritage (for more information please see the special edition of Entre Nous dedicated to CIOFF® - UNESCO 2012).

The Open Forum at the Congress was dedicated to Intellectual Property and the Safeguarding of Traditional Cultures: Challenges and Opportunities for Folklore Festivals® which was presented by the WIPO representative, Mme Brigitte Vezina. During the Congress all the participants attended a Civic Reception at the Paris City Hall, housed in the historic Hotel de Ville de Paris on the river Seine. The Congress culminated in a CIOFF® Presentation Night at the UNESCO Theatre, attended by 1200 people, including Permanent Representatives of various countries to UNESCO. The CIOFF® President, Udomsak Sakmunwong (Thailand), made a short presentation of CIOFF®, which was followed by a concert from the newly established CIOFF® France Music and Dance Ensemble.
As has been happening since 2001, CIOFF® Youth celebrated a new World Forum under the High Patronage of UNESCO. The Forum is the most important meeting celebrated by the youth every two years. It is not only a special moment because of the election of the new Youth Coordinating Committee, it is also the appropriate environment to share and to plan common activities, to strengthen the communications between the youth and to define the work plan for the next two years. This year, the Forum had a special meaning because it was celebrated, for the first time, at the same time as the World Congress, demonstrating the commitment of CIOFF® to strengthen the work with the youth.

The fifth edition of the Forum had the participation of the following countries: Argentina, Canada, Colombia, Estonia, Finland, France, Germany, Greece and Italy. There were three intense days with very good results, including the elaboration of two Programs to be implemented during the next two years: one related to the safeguarding of traditional trades and another concerning the safeguarding of myths and oral traditions. It is important to highlight the commitment assumed by the YCC to the safeguarding of the Intangible Heritage, one of the main goals of CIOFF® International and UNESCO.

Finally, there were elections of the new members of the YCC for the period 2012-2014 and the elected representatives are: Ramiro Mansutti (Argentina - Chairman), Antonio Mallozzi (Italy - South European and African Sector representative and Vice President), Jessica Latourrette (France - Youth member of the Legal Commission and Secretary), Ruth Dolores Villanueva (Canada - Youth member of the Finance Commission and Treasurer), Emerson Fandiño (Colombia - Youth member of the Cultural Commission), Chiara D’Elia (Italy - Youth member of the Festival Commission), Suvi Puranen (Finland - Youth member of the WG on Training and Education), Sherling De La Paz (Canada - Youth member of the PR WG and coordinator of the Asian and Oceanian Sector), Kaia Kärner (Estonia - Youth member of the Folkloriada WG and North European Sector representative), Daiana Jacquier (Argentina - Latin American Sector representative) and Maša Kumperger (Slovenia - Central European Sector representative).

The Forum was also the last meeting of some of our most valuable YCC former members: Irene Pimpinella from Italy, Fanny Mathinier from France and Laura Linat from Estonia. We want to thank them the great work they have done!

In Fond Memory of Rosemarie Engel

On December 16, 2012 our Honorary Member Rosemarie Engel passed away at the age of 84. She was Head of the section for folk Art in the Ministry of Culture of the German Democratic Republic and professionally closely connected to the Traditional Arts. From 1973 till 1989 she was the National Delegate of the GDR in the CIOFF® World organization. In 1981 she organized the CIOFF® World Congress in Gera in the former GDR. I personally got to know and respect Rosemarie in 1989 as a very good and open friend, despite the Iron Curtain that existed at that time. After the integration of the German Democratic Republic with the Federal Republic of Germany she got further involved in the CIOFF® organization. As a member of the Legal Commission from 1982 – 2002 she was significantly involved in the revised versions of the CIOFF® By Laws and Internal Regulations. For her great merits in the CIOFF® World Organization she was awarded Honorary Membership in 1996.

Rosemarie Engel was a keen supporter of our aims, the conservation of Traditional Culture and the promotion of international understanding. With her we have lost a tireless combatant and good friend. Her experience and expert knowledge were always welcome and helpful. We will keep her always in deeply grateful and good memory and in commemoration.

In Fond memory of Barbara Campbell

Barbara Madalena Campbell was born in Glewitz, Germany. She was a survivor of the Second World War. Barbara met the love of her life, Terrance Campbell, and together they immigrated to Canada in 1957. As she raised 6 children in Halifax, she was also very active on the sports and cultural fronts. She contributed to the preservation of the German culture by participating to the Halifax German Association and to German Canadian radio programs.

Barbara then accepted the position of executive director for Nova Scotia’s Multicultural Association and devoted herself for 30 years to the understanding and respect of various Nova Scotia ethno-cultural communities’ cultures. The Nova Scotia government recognized her excellent work of showcasing cultural diversity in the province. Because of her leadership the Nova Scotia’s Multicultural Association was accepted as a member of Folklore Canada International to represent intangible cultural heritage groups and festivals in Nova Scotia. Since 2000, she was part of the Canadian delegation to the CIOFF® Congress. In 2004 she joined the Working Group for Children. In 2009, she was elected on the CIOFF® Council to represent the North American sector. Barbara passed away on October 12, 2012. Throughout her work for cultural diversities and intangible cultural heritage she succeeded in building bonds of friendship in Canada, the United States, the Caribbean and in CIOFF®. Thank to Barbara for her contribution in promoting the intangible cultural heritage, showcasing expression of cultural diversity and friendship around the world.

Report by CIOFF® Korea
Finally, like a dream that came true, the youth from nearly fifty countries assembled under the skies of Korea to share their songs, dances, crafts, games and food ...— everything man created to cover their basic needs - becoming a testimonial that peace is possible. Anseong City build a magnificent venue which hosted the joy of thousands of young people, all thanks to the efforts of CIOFF® Korea and their volunteers who prepared for eight years to create this unforgettable event.

The experiences of the 3 previous Folkloriadas were well taken into account and we have reached the ideal of what we intend to be the most important artistic achievement of CIOFF® Worldwide. We know that we still have to make some improvements, but we are encouraged that we have not repeated errors of the past and the innovations that were prepared for this edition were found to be great ideas to be repeated in 2016. A special paragraph is deserved by responsibilities given by the authorities of CIOFF® Korea to CIOFF® Youth. They not only covered the activities for which they were invited, they also were an important part in the publication of journals, were responsible for conducting the group games, their shop became the best source of information on any topic you needed to know...

We know it has not been an easy task for the organizers, especially taking into consideration the diversity of cultures they hosted at Folkloriada, but above all we know that CIOFF® Korea dedication made it possible for CIOFF® to perpetuate the Folkloriada project. Congratulations!!!

FOCUS ON CIOFF® WORLD FOLKLORIADA 2012

Working Group on Folkloriada

Folkloriada has been one of the biggest projects of CIOFF® in the recent years, also including CIOFF® Youth which had a great opportunity to participate actively in developing the event. Three members of YCC worked in Anseong from the middle of September to collaborate with Folkloriada Organization Committee. They were in charge of publishing two editions of a special Newsletter dedicated, completely, to the event. The newsletters were produced with the support of CIOFF® Korea and Folkloriada Organization. Copies of the newsletters were distributed, for free, during Folkloriada.

CIOFF® Youth was also in charge of managing and coordinating the Games Days, which took place during Folkloriada from 8th to 11th October. The second edition of the Newsletter was dedicated to the Games Days and by its structure was remindful of “Playing Together”, the cultural Youth Magazine dedicated to Traditional Games, which CIOFF® Youth has been producing, each year, since 2009.

The majority of the groups attending Folkloriada showed their own cultures through their traditional games: they were teaching these to other groups and to people that wanted to join this nice atmosphere. Games Days were very successful within Matchum Land participants and audience. CIOFF® Youth sincerely wants to thank once again the Korean National Section of CIOFF® for giving a unique and interesting opportunity of intercultural exchange between people of the world!

CIOFF® Youth Joined in the Work of Folkloriada 2012
I became acquainted with Confolens city and Confolens Festival in 1960. Henry Coursaget became my friend, from this time on and ten years later, accompanied by my friend Celestino Graça, I was able to participate in the founding of the CIOFF® organization, where I had the honour to represent Portugal during 25 years.

I, your friend, João Moreira, 90 years old, declare, here, in front of my partners, that CIOFF® was one of the most important things in my life... And why? For its great principles of discipline and folkloric comradeship which we should transmit to the groups of our countries, but especially for the desirable goal of the message of Peace and Tolerance among all men of good will. This is what I call «the mystique of CIOFF® ».

And the moment has arrived, not to say goodbye, but to pronounce the famous sentence “ce n'est qu'un au revoir mes frères” (Auld Lang Syne, Farewell Song) and thank you for all the kindness you have given me during all these years and, if you allow me, I would love to leave here a word of “saudade” and gratitude to the founders of CIOFF® already gone: Maria Sampelayo (Spain), Michel Kosinsky (Poland), Joseph Hendrick (The Netherlands), Victorio Gritti (Italy), Philippe Conroy (England), Fanny Thibaut (Belgium), Paul Pull (Switzerland), François Gouaud (France), Celestino Graça (Portugal), Samuel Biakik (Israel), Acs Mikedosne (Hungary), Philippe Durizy (the first CIOFF® Secretary General) and two or three others whose names I don't remember.

And, naturally, to our first President, an intelligent man, of big courage and initiative, Henry Coursaget, responsible for these unforgettable moments which we are living now. I must also congratulate the movement CIOFF® Youth, volunteers, performers and the Secretary General, for his work.

Working Group for Training and Education (WGTE) shares four new articles discussing different perspectives of teaching folklore. Dr. Dan Ronen's article, “Curriculum to Preserve Cultural Heritages,” introduces an example of a school curriculum that encourages children to learn about their own roots and cultural heritage in Israel’s multi-cultural society. Djamel Ghazi suggests in his article, “Notational issue of Mızan nčrâf of San’ra Algiers,” the need to develop a new notation system that can be applied to the traditional Algerian folklore music. Shifu Nelson Ferreira’s article, “Appreciating Chinese Martial Arts: A Brief History of Their Roots,” emphasizes the importance of understanding the origins and traditions behind the arts we study and the role of folklore, legends and myths. The fourth article, Fr. Gian Carlo Michelin’s “Helping Children Grow through Dance and Folklore,” introduces a teaching method used in Taiwan. It is based on psychological theories of children’s development and it encourages children to participate actively in the teaching process.

These articles are available for all CIOFF® members at www.cioff.org on Intranet under Shared Documents - WGTE File. WGTE continues to collect articles that research and promote methods and programs of training and education that safeguard and transmit traditional cultural heritage within the context of festivals and presentations of traditional arts from CIOFF® workshops/conferences, including papers and presentation from CIOFF® Youth.

Dear Colleagues,

I would like to present a plan, which can serve as a motivation for a CIOFF® National Section’s work. In my opinion CIOFF® Armenia is doing very comprehensive and important work on the territory of the Republic of Armenia, but our possibilities are much bigger. I don’t want to review the history, but I am sure many of you will know that more than half of Armenians live in other countries around the World.

Living in other parts of the World, Armenians create communities, spiritual and cultural centres, folk dance and song groups, traditional handcraft centres, etc. Last year I visited California (USA) and had discussions with local Armenian Dance Group directors. One of the issues discussed is what I want to present to you today.

Taking into consideration the fact that groups based in Armenia have a lot of problems traveling to other countries, one of the main problems being lack of finance to purchase flight tickets, I propose to allow and support different Armenian Groups from around the World to participate in CIOFF® International Festivals. They will perform under the flag of Armenia and their country of residence. There are 120 Armenian dance groups in the World outside Armenia.

I hope that the Festivals in different countries will support my proposal and understand that this approach will contribute to friendship, recognition, cultural exchange and communication of people around the World.

Tigran Hakobyan, President of CIOFF® Armenia

Heritage of CIOFF® Hungary on UNESCO ICH List

UNESCO inscribes the heritage of the Matyó, a long-standing member of National Section of CIOFF® Hungary, on the Representative List of Intangible Cultural Heritage of Humanity. Announcement of the decision to inscribe twenty-seven new elements on the Representative List was made at the 7th session of the Intergovernmental Committee for the Safeguarding of the Intangible Cultural Heritage held in Paris, 3-7 December 2012.

In anticipation of the inscription, CIOFF® Hungary provided a glimpse of the heritage element at the CIOFF® World Folkloriada 2012 in Korea by featuring the traditional embroidered costume of the Matyó in its exhibit and holding Matyó handcraft demonstrations for the duration of the festival. If you missed out on Matyó folk art in Korea read the brief description of the element below.

CIOFF® Hungary was also one of the members preparing a previous nomination entitled “Tânchâz method: a Hungarian model for the transmission of intangible cultural heritage”, which was inscribed on the UNESCO Register of Best Safeguarding Practices of Intangible Cultural Heritage in 2011. If you don’t know what Tânchâz is, view it at: http://www.youtube.com/watch?v=L6b61EYeaC8

‘Folk art of the Matyó, embroidery of a traditional community’ (2012)

The Matyó-s are an ethnographic group formed in the 18-19th centuries who lived in the historic market town of Mezőkövesd at the juncture of the Great Plains and Mountain regions of north-western Hungary. During the formation of the Hungarian national culture at the turn of the 19-20th century, the colourful floral patterns of Matyó folk art became one of the emblematic symbols of Hungary. Traditional Matyó folk culture includes characteristic embroidery and clothing, religious faith, handcrafts, decorative furniture painting and folk dance - all still living elements of community life.

The Sector has set as its immediate goal the task of incorporation of new countries and stimulating the strength of existing National Sections.

In December, the Sector President, Alejandro Camacho, and Delegate of Costa Rica, Hans L. Gutierrez, made a trip to El Salvador and Guatemala. In El Salvador they met with the Ministry of Culture, officials of that agency and the Director of the National Ballet, which resulted in immediately scheduling a meeting held at the National Theatre attended by 19 representatives of groups, totaling 23 people, who will elect an Executive Committee. They have received a commitment of support from the federal government and cultural authorities.

In Guatemala, a meeting was held at City Hall, with the presence of 8 groups including the National Ballet. As in El Salvador attendees were briefed on the whole concept of “what is CIOFF®” and its work for the rescue, preservation and dissemination of folklore heritage through festivals, conferences, forums, workshops, etc..

A meeting held subsequently resulted in the election of their first officers thus ensuring the body that had been created will become a formal institution.

The enthusiasm, the seriousness with which they assumed the responsibilities and received the official support, lead us to believe that in its 2013 Assembly the Sector will have expanded by a minimum of two countries.

Also, Hugo Ifrán CIOFF® Vice president continues contacts with Bolivia, Uruguay and Puerto Rico, three countries with significant wealth in Intangible Cultural Heritage, which will contribute to forming an attractive map of the Cultural Diversity of Latin America and the Caribbean.

These actions constitute a positive response to the permanent directives of CIOFF® in the interest of the extension to new countries.

CIOFF® ARGENTINA - In Action

With this inspiring title National Section CIOFF® Argentina has begun editing a publication designed to report on activities and projects developed by its committees and partners.

The second edition was distributed at the World Folkloriada in Korea and to the participants at the World Congress held in Paris, constituting an irrefutable document of actions referring not only to the conduct of festivals or sending groups to festivals abroad, but extending also to research on various aspects of Traditional Culture and Folklore, intergenerational work for the rescue, preservation and dissemination of folklore, cultural forums for the resolution of problems related to Intangible Cultural Heritage preservation, etc..

The National Section began publishing its activities several years ago through the magazine “Calendar”. This has now been replaced by “CIOFF® Argentina in Action”. The Youth Section, meanwhile, published sixteen years ago the journal “Werken Mapu” (Messenger of Earth-Mapuche language) which is the oldest publication by the youth movement in the CIOFF® world.

Folkloriada 2012: Young people from the cities of Bell Ville, Calchaqui Cayastá, Coronda, Corrientes, Crespo, Paraná, Rio Cuarto, Rosario and Santa Fe, in 4 provinces belonging to the groups: “Abriendo Surcos”, “Compañía Argentina de Danzas”, “Lazos de Amistad” and “Pampa y Senda” created an excellent example of integrating their talents. Crafts, traditional foods, games and, of course, music and dance were a message of peace from the Argentine people through their folklore, under the direction of Prof. Beatriz Sangoy.

Guillermo Yriarte: One of the most relevant individuals of CIOFF® Argentina has passed away. He was a true benchmark of folk culture in general and in particular of Indian traditions. As an Honorary Member of CIOFF® Argentina, his idea of the “Living Memory Bank” is one of the most important cultural developments of the Section.

Assembly and Annual Meeting of the National Section: The 20th session was held on 1 to 3 February in the city of Bell Ville, organized by the group "Pampa y Senda" led by the National Section Chair Prof. Abel Cerrutti.

On November 11, 2012 the Wisconsin State Division of the Polish American Congress hosted its 15th annual Polish Independence Day banquet of traditional Polish dishes at the Polish Center of Wisconsin honouring Pani Ada Dziewanowska. Guests from across the United States attended. Ada Dziewanowska was awarded the Paderewski Medal of Service by the Polish Army Veterans Association of America for her many years of dedicated service to the cultural heritage of Poland. For more than six decades, Mrs. Dziewanowska has been nationally recognized as a leader in the authentic performance of Polish dance in America. She authored *Polish Folk Dances and Songs: A Step-by-Step Guide*. (New York: Hippocrene Books, 1997), with Basia Dziewanowska, Jaś Dziewanowski, Staś Kmieć, and Jacek Marek. This work contains in-depth descriptions of more than 90 of Poland's most characteristic and interesting dances, including the national dances: the Polonez, the Mazur, the Kujawiak, the Oberek, and the Krakowiak, as well as selected regional dances from the five ethnographic areas of Mazowsze, Małopolska, Silesia, Wielkopolska, and Pomorze. Ada has provided numerous workshops on Polish dance and folklore in the United States, Canada, Belgium, Germany, Switzerland, Israel, Mexico, Taiwan, Hong Kong, and Japan. Ada was a recipient of the International Institute of Wisconsin’s Expressive Cultural Heritage Award. A paper from her North American Sector meeting presentation is available on CIOFF® Website on Intranet under Shared Documents WGTE File.

Ada, a Polish immigrant, uses dance to enrich people's lives. She continues to research the dances and music of Poland and cares for a collection of authentic costumes, a library of Polish folklore including dance, music, "how to cook" and a bit of history. At 95, she takes classes in Mind Aerobics and Tai Chi and enjoys serving vodka from Poland at her dinner parties. She actively participates in her church, organizes and sings with the International Christmas Choir, works in boutiques, teaches children's games and stories and with Syrena Ensemble and Syrenka (a children's group) she still directs, she performs in festivals such as Polish Fest and the Holiday Day Folk Fair International.

Folklore activities with visually impaired youngsters

In the summer of 2010 CIOFF® Youth Estonia was asked to carry out some folklore related activities in a camp organised for visually impaired children and youngsters. We accepted the offer without any hesitation. However, we were worried about having blind or partially blind children as participants in our games and activities that usually involve a considerable amount of moving around.

We prepared ourselves to avoid certain games and words so that we would not hurt the participants’ feelings. For example there is a popular traditional game called “The blind billy-goat” in which one of the players is blind-folded and tries to catch someone and guess who it is. Thinking that it was inappropriate for our participants, we wanted to eliminate that game right away.

After spending a day with those children we were truly impressed by their positivity and state of mind. They were fearless and had no problem with being blind. They said that they are used to being the way they are and told us not to worry about it. They wanted to participate in all our activities, including “The blind billy-goat” game, which made us understand how much stronger are the other senses of those who cannot see.

Taking part in that camp was a truly valuable experience and it made us look at life from a bit different angle.

CIOFF® LATVIA
Festival “BALTICA” Celebrates 25th Anniversary

The “Baltica” festival began in 1987 and has taken place every year since then, rotating between the three Baltic States of Lithuania, Latvia, and Estonia.

The “Baltica” festival is very important for the Baltic nations in that it presents the many aspects of the traditional cultures of the Baltics: songs, instrumental music, narratives, song games, dances, applied and decorative arts, traditional crafts and trades, etc.

The “Baltica” festival features ethno- graphic ensembles, folklore groups, individual performers, and other groups and individuals that reflect the mission of the festival. It also includes a Film Festival about traditions.

The theme of the “Baltica Festival 2012 was “ROAD”. The road has always existed from generation to generation. It connects homesteads and villages, states and countries, peoples and nations. We follow life’s path from the moment of birth in the homestead’s bathhouse to our final resting place in our eternal home.

For most, the traditional way forward is through wedlock, for others - the soldier’s warpath. Crossroads and choices. The courageous hit the road but it is twice as hard to go full circle and return home, back to one’s ancestral roots and mother lode. The road taken expresses each individual’s course of life. But being on the road means entering the world of hundreds of years of unchanging traditions handed down by our ancestors. They open us up to the high heavens as well as the sheltering powers of the earth. The way is filled with labor, joy and sorrow. Each of us travels down his own unique and finite road.

The Road of fire. The Path of the Sun. The Bean Stalk. The Singing Way. They all take us into another realm, another world. The temporal road brings closeness and togetherness, strengthening our spiritual path and uniting us with the infinite. The various roads of folk wisdom and traditions deal with the here and now. In order to come together, we must each learn to understand our particular folk road signs.

Let’s find the way to our local traditions!

The “Baltica” festivals in Latvia drew over 2000 National and International participants each time.

Composed of 24 States and elected by the General Assembly of the States Parties to the 2003 Convention for the Safeguarding of the Intangible Cultural Heritage, the Intergovernmental Committee meets once every year. Since 2008 National Section CIOFF® Bulgaria has been one of the NGOs selected as Consultant to the Committee for Safeguarding of the ICH.

During the Seventh session, held in Paris, France – 03-07 December 2012, chaired by Mr Arley Gill (Grenada), the Committee examined the periodic reports of the States Parties on the implementation of the Convention, as well as the current state of the elements inscribed into the Representative List. It has also considered the inscriptions on the List of Intangible Cultural Heritage in Need of Urgent Safeguarding and the Representative List of the Intangible Cultural Heritage of Humanity. The Committee has selected programs for the Register of Best Safeguarding Practices and grants financial assistance for safeguarding plans.

CIOFF® ITALY—Cultural Activities

As usual, the summer season of CIOFF® Folklore Festivals in Italy closed with the World Folk Dance Festival “Castello di Gorizia”. And, as usual, in Gorizia the Festival has been flanked by a Workshop on Folk Traditions, sponsored by the National Section.

This year’s focus was on “Practices of transmission of the intangible cultural heritage from generation to generation”. The subject choice was connected to the fact that the European Union declared 2013 as the European “Year for the active ageing and the intergenerational solidarity”. Lectures were presented by Prof. Gioia Di Cristofaro Longo (University of Rome), Prof. Mario Atzori (University of Sassari and President of the Scientific Commission of FITP), Dr. Valeria Cottini Petrucci (Expert Consultant of the Ministry for Cultural Resources and Activities), Dr. Massimiliano Marangon (Anthropologist), Dr. Alberto Tentori (Psychiatrist) and Prof. Maria Luisa Stringa (President of the Italian Federation of UNESCO Clubs).

Furthermore, Prof. Peter Suhadolc presented to the audience the very last work of Dr. Bruno Ravnikar, CIOFF® Honorary Member, “Cinetografia e ballo popolare” (Kinetography and popular dances), published in Italian with the Gremese Publishing House.

On the occasion, the transcript of the 2011 workshop on “Memorie nazionali, tradizioni popolari e nuove identità transnazionali” (National memories, folk traditions and new transnational identities) were presented and distributed.

On September 30th the book “Castrovillari città del folklore?” (Castrovillari town of folklore?) was presented by the author, Dr. Rosanna D’Agostino. She has worked out a path through the folklore history in the town, history mainly supported by the local Folk Group and moved into the organization of the CIOFF® International Folk Dance Festival.

The book is sponsored by the CIOFF® Italy National Section and opens with a preface from its President.
